

Makaram Narasimhan Ravinarayan

Chairman

TAURUS POWERTRONICS PVT LIMITED

A PROFILE

Makaram Narasimhan Ravinarayan

- ◆ Graduated as an Electrical Engineer in 1984.
Started the career as distributor of auto parts and gradually switched over to lubricants market which has been evolving and growing rapidly since then.
- ◆ The companies in this lubricants wing are :
 1. Taurus Marketing Agents
 2. Taurus Enterprises
 3. Taurus Technologies
- ◆ In 1989 ventured into the power sector to manufacture and market “Test & Measuring” instruments for the power sector.
- ◆ The product “Leaky Insulator Detector, Partial Discharge detector and Non-Contact high voltage Detector” is one of the prime products supplied by this unit has a very wide and satisfied users across all Electricity Board and power utilities in India. It also Supplies many other power sector related “Test & Measuring” equipments. Over the years TAURUS POWERTRONICS has released many innovative products to the power sector.
- ◆ This wing also represents :

M/s. OFIL of Israel.	M/s. HVPD
M/s. General Electric (GE)	M/s. Tenmars Electronics Co. Ltd.
M/s. CTRL Systems	M/s. BEIMCO
M/s. Guide Sensmart	M/s. Altec
M/s. Multi Measuring Instrument India LLP	M/s. Sonotec
M/s. Chance	M/s. Power View
- ◆ For their “Test & Measuring” products.
The companies in this wing are
 1. Taurus Powertronic Systems
 2. Taurus Instrument (P) Ltd.
 3. Taurus Powertronics (P) Ltd.
- ◆ Mr. Ravinarayan is an active member of
 1. Society of Power Engineers (India)
 2. IEEE
 3. CIGRE, Paris
- ◆ He has been attending world congress at CIGRE, Paris on behalf of Central Board of Irrigation & Power, India from 2002 onwards.
- ◆ **Distinguished Member** Certificate from CIGRE-2018 Recognition towards contribution of innovative technologies to the Indian Power Transmission industry.

THE TECHNOLOGICAL WING

TECHNOLOGICAL WING PROFILE

Incepted in the year 1989, we “**Taurus Powertronics Pivt Limited**”, a division of the **Taurus group** of companies are one of the leading names in India to offer Innovative and cost effective testing & diagnostic equipment for power, industrial, defense & allied sectors. Designed in accordance to national and international norms. We have our group R&D unit, where we continuously look for and develop advanced technological solutions thereby offering the best products featured with high performance index.

Working on the motto of applying innovative technology effectively, our group have world-class production unit where we make sure that our every manufactured equipment is regularly field tested and performance monitored. The quality of our products is best in the industry and the raw-materials, we use are purchased from highly reliable and reputed suppliers. We have state-of-art production unit which is fully computerized for its operation and provides high accuracy and quality manufacturing facilities.

In addition to this, our strong team of marketing executives work in close co-ordination with our clients to understand their specific requirements and deliver products in exact accordance. Addressing the needs of the end user, our designed and developed products are truly a paradigm of innovative technology. Today, we are proud to state that we are one of the leading names to offer innovative & proprietary technology to our clientele.

Known for our highest business ethical standards, we provide the best service to protect the interest of our customers. At Taurus, our philosophy is to continuous evolve exponentially on the technological front, market them at a fair price, provide the best and economical service our customers deserve, and operate our business in an ethical and moral manner. We always welcome suggestions of improvisation to meet every aspect of the purpose intended to satisfy customer needs.

To complement our range we align with reputed global manufacturers, as their channel partners bringing in high end & high utility technology into India.

Our Products

At Taurus, we provide high quality products with competitive prices to assure buyer’s profit. The products that we offer in can be categorized as :

- ◆ Leaky Insulator Detector- Overhead Lines
- ◆ Leaky Insulation Detection with Ultra sound Partial Discharge kit- Sub Station
- ◆ Leaky Insulation Detection with Video PD
- ◆ Dielectric Tester for Distribution Overhead Power Lines
- ◆ Non Contact Voltage Detector
- ◆ Safety- Tools- Discharge, D.O & Operating Rod
- ◆ Hot Line Tools
- ◆ Insulated Aerial Working Platform
- ◆ Daycor Corona Camera
- ◆ Infrared Thermography Camera
- ◆ Voltage & current detectors for Distribution
- ◆ Leakage current monitors

An ISO 9001 : 2015 Company

QUALITY POLICY

Taurus is a technology driven organization and will gain consistent faith and confidence of customers with commitment of quality, timely delivery and cost effectiveness

Taurus is quality conscious and will strive to achieve high level of competency in Supplying and Maintenance of Innovative & customized "power Monitoring equipment" and "Test & Measuring equipment"

To meet our commitment, we will:

- ◆ Strive for complete understanding of customer application & requirements
- ◆ Seek out innovative technologies for assuring error-free work
- ◆ Emphasize appropriate training for all employees and well being
- ◆ Continually improving all activities
- ◆ Adhering to statutory and regulatory requirements
- ◆ Consistently meeting or exceeding customer's expectation.

OBJECTIVES

ORGANISATION

- To be leader of Indian T&M instrument manufacture suppliers in India before 2014

- To be global leader of T&M suppliers & solutions before 2025 and achieve total turnover of over 1 Billion Dollars

MARKETING

- To promote our products in to the Market and identify all applications areas of T&M in power sector
- To offer complete T&M product supply & service solution to the end users in power sector

PURCHASE

- Reducing the purchase cost to the customer by developing innovative & effective techniques

INSTALLATION

- Achieving installation targets with effective process controls and achieving zero defects in installations
- Achieving highest safety in all field activities
- The above objectives are supported by following measures,

MARKETING

1. To develop the generation, distribution & the Industrial segments equally as the transmission segment
2. Registering also with all Contractors / Consultants as approved vendor for T&M segments
3. To develop dealer market
4. Continually improving the customer satisfaction level

PURCHASING

1. To improve purchase cycle time and be ready towards supply on receipt of order
2. To have a vast network of alternate suppliers and solutions to be able to offer prompt solution to the customers

INSTALLATION AND SERVICE

1. Ensuring all the deliveries are within customer's delivery schedules to avoid LD clause. (Liquidating Damages)
2. Increase quality checks
3. Increase safety awareness

TRAINING

1. To provide minimum 10 hours training to technical/service staff once in a quarter
2. Sales & Marketing training twice a year

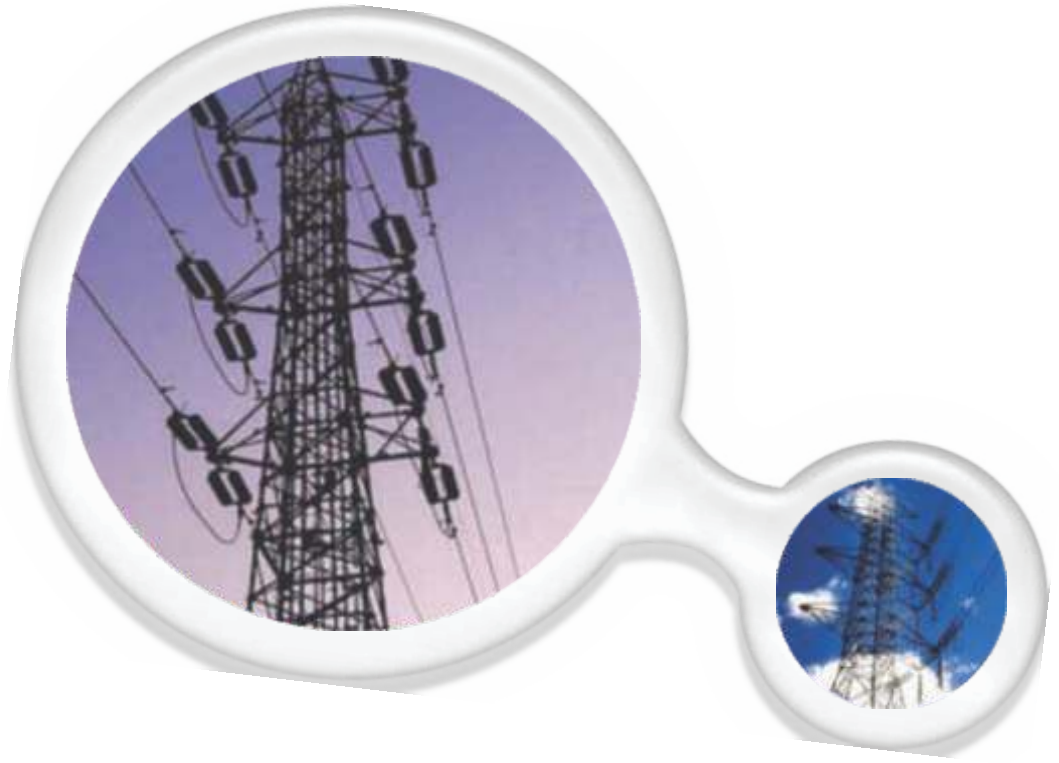

Innovative Technologies

An ISO 9001 : 2015 Company

TAURUS POWERTRONICS PVT LIMITED

Leading with innovation

that gives you a competitive advantage

Vision

Group to be a global leader in all core businesses which embraces innovation, exceptional business practices, ethical values and creative approach

Mission

We are establishing ourselves as a world class company in the core business, empower our staff to excel, ensure complete customer satisfaction, maintain exemplary standards of corporate governance, fulfill our role as a responsible corporate citizen to society and integrate global resource sharing.

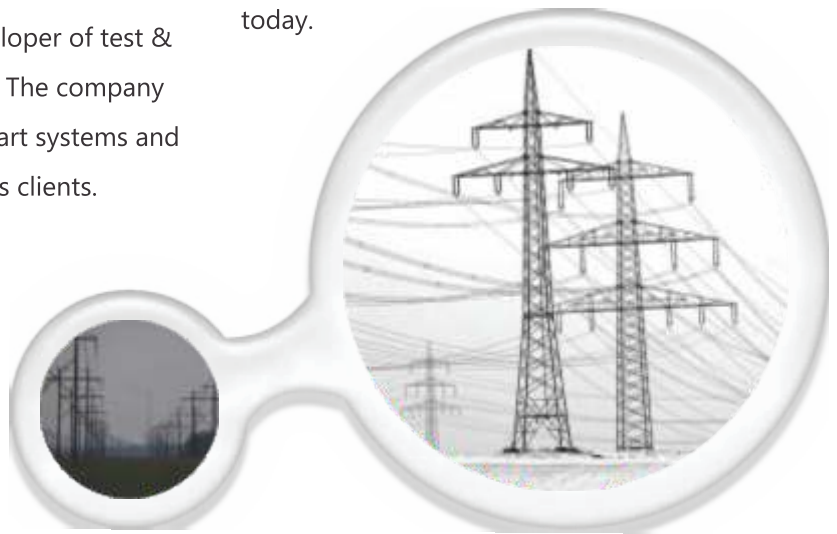

Company Overview

Taurus Powertronics was established in 1991 as a part of the Taurus Group of companies. Our head office is located in Bangalore, India.

Over the years, Taurus has established itself as the preferred choice as a designer and developer of test & measurement systems for power sector. The company offers wide range of advanced state-of-art systems and customized technological solutions to its clients.

The company has been steadfast and distinctive in their adherence to business ethics and their commitment to corporate social responsibility. This is a legacy that has earned the Taurus the kind of reputation which it has today.

Why Taurus Powertronics

We are leading developers of testing and measuring systems for power sector, consistently developing exceptional results across a broad-based range of products and services.

- Taurus offers unique range of solutions across power sector by advancing and improving meaningful innovation.
- Taurus bring efficiencies to those we touch within our continuum of care by developing the right product at the right place and time, at the best possible price.
- We focused our self to develop innovative testing and measuring equipments for power sector and thereby improve the quality and availability of power.
- Taurus is a stable technological company that has been in the power sector for more than 18 years. Taurus believes that our proven history will give us the strength and stability to stand the test of time.

Our System delivers

As a Taurus customer, you can rely on a company known for keeping promises and delivering bottom-line benefits.

Taurus Products & Services helps you to achieve:

- Predictive Maintenance
- Improve Grid & Network Reliability, Connectivity, Capacity & Efficiency
- Low Maintenance Costs
- Long Equipment Life
- Unimpeded Energy Transfer for High energy Efficiency
- Enhanced Environmental Compliance
- Safe and Healthy Workplace

Innovative Technology that drive continuous improvemnet

Research & Development:

Taurus believes that "Today's challenges in power sector require innovative solutions. Sometimes incremental improvements may be sufficient but more radical breakthroughs are necessary".

Taurus has always laid special emphasis on R&D. Our R&D Department is aided with the latest advanced technology and manned by qualified and experienced professionals who continue to evolve advance state of art technology and engaged in doing fundamental development in the field of Test & Measurement, acquiring knowledge and expertise on latest technology & trend on global basis and adapt them quickly to suite current market trends and economical designs to suit the client's requirement. This ability enhancement & innovation has given Taurus a competitive edge over its counterparts.

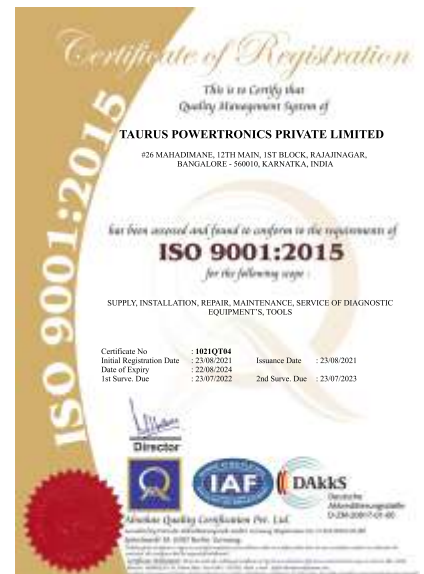

Quality Assurance & Certification

Quality assurance is of paramount importance to us. We have obtained ISO 9001 : 2008 Certification, a testament to our on -going quality management process.

Quality Policy

A quality policy conforming to international standards and requirements is strictly adhered to give you the best value for your purchase. If you have any practical suggestion for improvisation or an innovative concept, we welcome your participation.

The continual improvement of our products, processes, and services combined with innovation is at the centre of our endeavors. For this purpose, we strive to further optimize our organizational, operational, and technical processes.
